Jl. Imam bonjol Gg. V/ No. 6, RT 4 RW 5 Kel. Brotonegaran, Kec. Ponorogo

I am a fresh graduate with a Bachelor's degree in Informatics from UPN Veteran Jawa Timur. I possess experience and a strong interest in Machine Learning, Computer Vision, UI/UX, and web development; I am also keen to further explore the fields of AI and the business world. I am an honest and responsible individual with strong logical reasoning, analytical, and critical thinking skills. I am disciplined, communicative, adaptability, and possess a strong desire to learn new things.

Educational Level

Universitas Pembangunan Nasional Veteran Jawa Timur - Surabaya — Aug 2021 - Jul 2026

Bachelor of Computer Science, 3.82/4.00

- Participating in the MBKM independent study program "Bangkit"
- Sinta 4 Journal: Potato Leaf Disease Classification Using MobileNetV3Small Transfer Learning with Dataset Split Ratio Comparison
- BNSP Certification: Certified Junior Web Programmer by the National Professional Certification Agency (BNSP).

Experience and Projects

UPN "Veteran" Jawa Timur - Surabaya — Mar 2025 - Jul 2026

Thesis - Potato Leaf Disease Classification using Transfer Learning based MobilenetV3Small Architecture

- Developed an efficient deep learning image classification model utilizing the lightweight MobileNetV3-Small architecture via Transfer Learning to identify potato leaf pathologies (Early Blight, Late Blight, and Healthy).
- Implemented pixel standardization [-1.0, 1.0] matching pre-trained ImageNet weights and dynamic data augmentation (Gaussian blur, noise, lighting variation) to simulate real-world environmental noise.
- Optimized hyperparameter configurations using Bayesian Optimization and executed a two-phase training strategy: feature extraction using Adam optimizer, followed by fine-tuning the final 40 layers with SGD Nesterov momentum.
- Evaluated model performance achieving 98.15% internal test accuracy, and conducted an external cross-dataset evaluation (84.67% accuracy) to critically investigate and identify domain shift effects in field environments.

Dinas Kesehatan Provinsi Jawa Timur - Surabaya — Jul 2024 - Aug 2024

UI/UX

- Developed a complete high-fidelity Figma prototype for the user side (medication allocation, medication requests, medication pickup, history) and the admin side (allocation input via Excel upload, allocation management, and management of request and pickup statuses).
- Added a feature not present in the old system: a filter for medication allocation based on year or program.
- The design received praise from the mentor, who is also a SILOBA administrator, and proceeded to the revision phase, with features added in accordance with the agency's development plan.
- Completed the entire design and report within one month. Additionally, participated in East Java Health Office activities such as self-screening for tuberculosis using the E-TIBI app.

Bangkit Academy 2023 By Google, GoTo, Traveloka - Jakarta — Aug 2023 - Dec 2023

Cloud Computing Learning Path

Study Independent

- Independent Study Cloud Computing Learning Path activities include individual learning and a final project in the form of a team. In individual learning, each participant will attend classes in the form of asynchronous (online through learning modules at Dicoding Academy, Coursera, and Google Cloud Skills Boost) where participants can consult with experts related to the material they learn.

Keterampilan, Prestasi & pengalaman lain

- **Machine Learning (Hard Skills)**: Python, TensorFlow, Keras, CNN, Computer Vision, Scikit-Learn, Pandas, NumPy, Model Evaluation.
- **UI/UX (Hard Skills)**: Figma, Wireframing, High-Fidelity Prototyping, UX Research, User Flow.
- **Web & Cloud (Hard Skills)** : HTML5, CSS3, JavaScript (ES6+), Node.js, Hapi.js, RESTful API, Google Cloud Platform (GCP).
- **Tools & Platforms**: Figma, VS Code, Google Colab, Kaggle, Postman, Canva, DaVinci Resolve, Microsoft Excel & Word, Google Sheets.
- **Soft Skills**: Analytical & Logical Thinking, Critical Problem Solving, Cross-functional Communication, Accountability & Integrity, and Adaptability.
- **Language**: Indonesia (Native); English (Intermediate)
